

CASE STUDY

Offshore Oil Pipeline Installation Project, Australia

OIL & GAS

tglobal.com

facts & figures

CLIENT

A global EPC contractor

LOCATION

Global origins to Onslow, Australia

PROJECT PERIOD

2023 – 2025

SCOPE OF WORK

TGP delivered this project through the port of Dampier, Australia, and provided marine agency, full-scope supply base management at the nearby Karratha facility (including personnel, and material handling equipment), international freight clearance, domestic logistics, low-value purchasing and waste management services.

TGP provided a suite of additional value-added services to the client, including fuel purchase and delivery for its marine fleet, low value purchasing and ad hoc site work.
