

CASE STUDY

Steel Mill Upgrade Project, Germany

INDUSTRIAL

tglobal.com

facts & figures

CLIENT

A leading German steel producer

LOCATION

Lower Saxony, Germany

PROJECT PERIOD

2025

TOTAL CARGO WEIGHT / VOLUME

3,235 cbm / ~ 400 mt

SCOPE OF WORK

TGP managed the delivery of components for the process gas heater, including on-site delivery coordination to ensure the timely delivery of various material packages. This involved handling cargo with heights of up to 6.45 m.

Delivery was planned in compliance with special steel mill regulations, covering transport from the inland river port to the final destination and incorporating specialized trailer configurations.
