

CASE STUDY

OCTG Shipment, Abu Dhabi, UAE

PIPES

tglobal.com

facts & figures

CLIENT

An international pipe manufacturer

LOCATION

Zhangjiagang and Shanghai, China to Abu Dhabi, UAE

PROJECT PERIOD

2024 and 2025

TOTAL CARGO WEIGHT / VOLUME

27,000 mt

SCOPE OF WORK

TGP managed the first phase of a pipe supply programme, transporting approximately 27,000 metric tonnes of oil country tubular goods from Zhangjiagang and Shanghai in China to Abu Dhabi in the United Arab Emirates. Shipments moved over several voyages.

TGP developed the full transport concept, including transportation, lifting and stowage plans to support safe and efficient handling across all stages of the move. In 2025, TGP also carried out re supply shipments for the project.

All cargo arrived on schedule, with a 100 per cent on-time delivery record and a damage rate of just 0.06 per cent.
